Professional Summary

Full-Stack Software Developer experienced in building production-oriented web applications and SaaS platforms using **JavaScript, TypeScript, React, Next.js, Node.js, Express.js, PostgreSQL, and Redis**. Hands-on experience across frontend development, backend APIs, relational database design, authentication, real-time communication, transactional workflows, and multi-tenant application architecture. Currently contributing to a production HORECA Restaurant Management SaaS involving orders, QR ordering, KOT/KDS, billing, payments, and operational notifications.

Experience

Idea2Reality

Full Stack Developer

Apr 2026 – Current

Udaipur, India

- Contributing to **Restroeye**, a multi-tenant HORECA Restaurant Management SaaS, developing production features across **Next.js, TypeScript, Node.js, Express.js, PostgreSQL, Drizzle ORM, Redis, and Socket.IO**.
- Engineered end-to-end operational workflows for **orders, QR ordering, tables, KOT/KDS, billing, payments, split bills, and customer sessions**, coordinating frontend state, backend APIs, and transactional database operations.
- Implemented real-time operational communication using **Socket.IO, Redis, Web Push, and service workers** for kitchen, waiter, billing, and management workflows.
- Worked on **multi-tenant and role/property-scoped application architecture**, including API contracts, validation, database workflows, caching, auditability, and server-authoritative business logic.

Catalyst Atal Incubation Center

Intern Web Developer

Jun 2024 – Aug 2024

Jaipur, India

- Developed responsive web interfaces and integrated **Node.js backend services** supporting authentication and application workflows.
- Built a dynamic user dashboard with personalized data presentation and interactive functionality, improving navigation and overall usability.

Projects

Restroeye

Next.js, TypeScript, Node.js, Express.js, PostgreSQL, Drizzle ORM, Redis, Socket.IO

- Built a **multi-tenant HORECA Restaurant Management SaaS** centralizing restaurant operations including **orders, tables, QR ordering, KOT/KDS, billing, payments, customer sessions, and notifications**.
- Designed an end-to-end **order-to-settlement workflow** supporting dine-in operations, incremental orders, multi-area seating, KOT generation, open bills, split bills, discounts, taxes, and server-authoritative settlement.
- Implemented real-time synchronization between operational roles using **Socket.IO, Redis, Web Push, and service workers**, enabling timely kitchen, waiter, billing, and management updates.

Rental Dress E-Commerce Website

May 2025

HTML, CSS, JavaScript, Node.js

- Developed a responsive **dress rental e-commerce platform** with dynamic product presentation, authentication, and user-oriented navigation.
- Integrated **Node.js backend services** with interactive frontend functionality to support application workflows and dynamic content.

Education

Global Institute Of Technology

B.Tech in Computer Science & Engineering

2021 - 2025

Jaipur, India

GPA : 7.58/10.00

Technical Skills

Languages: JavaScript, TypeScript, Python, C++, C

Frontend: HTML, CSS, React.js, Next.js, Tailwind CSS

Backend: Node.js, Express.js, REST APIs, Socket.IO

Databases: PostgreSQL, MySQL, MongoDB, Drizzle ORM, Redis

Tools & Platforms: Git, GitHub, Docker, VS Code, Jupyter Notebook, Anaconda, MATLAB

Core Concepts: Data Structures & Algorithms, OOP, DBMS, API Development, Authentication, Real-Time Systems, Multi-Tenant Architecture
